

EXISTING HOUSE INFO REQUIRED

1. Age of House/Year Constructed
2. Orientation of Building
3. What insulation is present in the cavity Walls/loft? What thickness/type (if known)
4. What type of windows are in the house now/are these different to those put in when constructed?
Are there any intentions to change some or All of these windows
5. Boiler present? Oil/gas? Efficiency if known
6. Is there a Hot Water cylinder present? Is the capacity known? (litres) and what insulation is included in or around it
7. Is there mechanical ventilation? i.e fans in kitchens / WCs or any other system?
8. Is there any intention to insert a new Boiler or Wood Burning stove in any area?

Don't worry if any of this is unavailable as the SAP Documentation by BRE allows you to make certain assumptions on unknown elements

EXTENSION SAP Info if needed

9. Age of House/Year Constructed
10. Orientation of Building
11. What insulation is present in the cavity Walls/loft? What thickness/type (if known)
12. What type of windows are in the house now/are these different to those put in when constructed?
13. Boiler present? Oil/gas? Efficiency if known
14. Is there a Hot Water cylinder present? Is the capacity known? (litres)
15. Is there mechanical ventilation? i.e fans in kitchens / WCs or any other system?
